

Anime Lovers of All Ages Study With Us!

Study Japanese Language & Culture here!

When a student is obsessed with Japanese animation and comic books or gung ho about studying karate, its a great time to introduce the Japanese foreign language related to these activities!

As technology helps race society forward--breaking down traditional, distance and time barriers to communicating with lands overseas, studying a foreign language becomes more than just an academic requirement to full a state standard in school. Mastering a foreign language has become essential for getting ahead in a rapidly changing, fast paced, international world in which we live.

While Spanish seems like its practically becoming a standardized second language, studying rare, Asian languages like Japanese and Chinese seems like a unique activity for children. Parents can empower children with an advantage for their adult future by combining a child's adoration of foreign culture and media into developing employable skill sets that few others have. Give YOUR child an advantage for fast growing multi- cultural world in which they will be living as an adult. Enroll them in Japanese Studies programming.

Kanji Camp is a year round Japanese studies classroom for children and adults who wish to learn Japanese skills for a variety of reasons. Our traditional classroom offers motivated learners opportunities to study Japanese language via a disciplined, traditional learning system. Our students explore culture through hands on activities and creative projects. Our curriculum offers students essential language skills via vocabulary and grammar lessons as well as vital culturally appropriate social training for real world situations in Indiana or abroad.

Students in our Japanese classroom study the language for intellectual fun and opening academic doors, expanding college or graduate school options and pursuing adventurous career options in international markets.

We offer anime lovers (and their friends) an option that will open doors and enable students to spend time on a skill that will make them unique as their animation interests!
