

DOES YOUR CHILD: HAVE JAPAN ON THE BRAIN?

Then give your child
a linguistic advantage
for the future . . .

When a child is obsessed with Japanese animation and comic books or gung ho about studying karate, its a great time to introduce the foreign language related to these activities!

As technology helps race society forward--breaking down traditional, distance and time barriers to communicating with lands overseas, studying a foreign language becomes more than just a academic requirement to fulfill a state standard. Mastering a foreign language has become essential for getting ahead in a rapidly changing, fast paced, international world.

With approximately 200 Japanese invested companies in Indiana, studying Japanese seems like a reasonable activity for children living here. Parents can empower children with an advantage for their adult future by combining a child's adoration of foreign culture and media into developing employable skill sets. Give YOUR child an advantage for the even more multi-cultural world in which they will be living as an adult. Enroll them in Japanese Studies.

Kanji Camp is a year round Japanese studies classroom for children and adults who wish to learn Japanese skills for academic or business reasons. Our traditional classroom offers motivated learners opportunities to study Japanese language and culture via a disciplined, traditional learning system. Our curriculum offers students essential language skills via vocabulary and grammar lessons as well as vital culturally appropriate social training for real world situations in Indiana or abroad.

Students in our programs study the language for intellectual fun and opening academic doors, expanding college or graduate school options and pursuing adventurous career options in international markets.

When you're ready to offer your children options that will open doors, enable them to spend time on a skill that will make them unique! And contact us to learn more about Japanese class!
